EXPERIENCE

Senior Software Engineer

Tech Rage IT 01/2023 - 03/2025 Orlando, United States

- Developed scalable web applications using React, Redux, and Context API, contributing to a 30% improvement in frontend performance.
- Integrated RESTful and GraphQL APIs using Node.js and Express, ensuring seamless data flow between services.
- Applied TypeScript with Webpack, ESLint, and Prettier to enforce clean, maintainable, production-ready code.
- Built cross-platform mobile features with React Native, showcasing app consistency and boosting engagement by 20%.
- Wrote and maintained unit and integration tests using Jest and Cypress, troubleshooting issues, increasing code reliability, and reducing bugs by 15%.
- Leveraged Docker and Kubernetes in CI/CD pipelines (GitHub Actions), reducing deployment times by 40% and increasing release frequency.
- Used Tailwind CSS and Material UI to create responsive, visually engaging UIs.
- Collaborated in Agile sprints with GitHub and Jira, participating in code reviews and ensuring efficient release coordination.

Lead Developer

REIndicator 04/2020 - 01/2023 Washington DC, United States

- Led frontend development with Angular and NgRx, resulting in a 40% increase in user engagement and a 35% speed boost.
- Built the backend with Django and PostgreSQL, reducing API response time by 30%.
- Deployed features with GitHub Actions and Docker on cloud servers hosted on WebFaction and GoDaddy.
- Integrated third-party services (Mailgun, OAuth2) for real-time email notifications and secure authentication.
- Mentored junior developers in using TypeScript, Firebase, and Git best practices, improving team productivity by 30%.
- Drove Agile processes including planning, retrospectives, and backlog grooming for faster feature delivery.

Full Stack Web Developer

Hackyard AB 04/2018 - 04/2020 Stockholm, Sweden

- Created backend services using Node.js and Express to support dynamic puzzle generation and game logic.
- Optimized performance using MongoDB, Redis, and asynchronous data handling techniques.
- Built and styled interfaces with React(Next), Vue.js, and React MUI, translating design into a 25% increase in user retention.
- Built admin panel APIs using Spring Boot (Java) for managing puzzle logic and game session analytics.
- Enhanced data integrity and content management with Laravel and MySQL, improving admin tools by 20%.
- Used Docker and cPanel for hosting and deployment, and ensured scalability through modular design patterns.

Junior Web Developer

One.T 06/2015 - 03/2018 Texas City, United States

- Developed responsive, user-friendly UIs with AngularJS, Angular 2+, React, and Bootstrap.
- Delivered multiple websites and admin panels using PHP, CodeIgniter, Laravel, and WordPress, serving 1,000+ users.
- Created APIs and background services with Node.js and MongoDB, hosted on AWS (EC2, S3, Lambda, API Gateway).
- Practiced version control and collaborative development using GitHub and Bitbucket.

SUMMARY

Versatile Senior Software Engineer with over 10 years of experience in full-stack development, specializing in front-end technologies (HTML, CSS, JavaScript, React, Next.js, Angular, Vue) and strong backend expertise in Node.js, PHP, and Python (Django). Adept at building high-quality, performant web applications, optimizing system performance, and implementing CI/CD practices. Experienced in collaborating in Agile environments, managing projects, and delivering impactful solutions. Passionate about continuous learning, innovation, and adapting to emerging technologies.

EDUCATION

Bachelor of Computer Science

University of Texas at Austin

08/2011 - 05/2015 Austin, United States GPA 3.8 / 4.0

TECHNICAL SKILLS

Frontend Development Skills

HTML5, CSS3, JavaScript(ES6+), TypeScript, jQuery, React.js, React Native, Angular, Vue.js, Redux, Context API, Tailwind CSS, Bootstrap, Material UI, Webpack, Vite, Babel, ESLint, Jest, React Testing Library, Cypress

Backend Development Skills

Node.js, TypeScript, Python, PHP, Java, Go, Kotlin, C#, Express.js, NestJS, Django, Flask, Spring Boot, Laravel, CodeIgniter, WordPress, Kotlin, microservices, RESTful APIs, GraphQL, JWT, OAuth2, Jest, Mocha, Chai

Databases

MySQL, PostgreSQL, Firebase, NoSQL, MongoDB, DynamoDB, Redis

Server & Hosting Platforms

AWS EC2, AWS Lambda, AWS RDS, AWS S3, GCP, Azure, Heroku, DigitalOcean, GoDaddy, cPanel

Version Control / DevOps / CI/CD Integration

GitHub, GitLab, Bitbucket, Docker, Kubernetes, GitHub Actions

SOFT SKILLS

Communication, Teamwork, Problem-solving, Project Management

CERTIFICATION

React.js Developer Certification (Udemy)

Front-End Web Development with React (Coursera)
