Wheat Ridge, CO

PROFESSIONAL SUMMARY

Dynamic Full Stack Developer with over 12 years of experience in IT development, currently positioned as a Senior Software Engineer. I have honed expertise in scalable and secure web applications by utilizing modern frameworks such as React, Node.js, and Django. My leadership and mentorship abilities complement my collaborative nature in cross-functional teams. With experience across Medical/Healthcare, Fintech, and E-commerce industries and holding a Master of Science in Computer Science, I bring a blend of technical prowess and problem-solving aptitude to thrive in remote environments.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

WestLink

06/2021 – Present Denver, CO

- Lead the development of responsive and secure web applications for Healthcare and Fintech sectors using React, Node.js, and MongoDB.
- Collaborate with cross-functional teams to define, design, and launch new features, fostering a culture of effective communication and collaboration.
- Optimize applications for enhanced performance and scalability, achieving a 30% increase in application speed.
- Maintain clean, efficient, and well-documented code, adhering to industry best practices.
- Troubleshoot and resolve complex technical issues, reducing operational downtime by 40%.
- Implement RESTful APIs and integrate third-party services, contributing to a seamless user experience.
- Stay ahead of emerging technologies to improve the tech stack continually.
- Mentor junior developers, enhancing team skill levels and productivity.

Software Engineer

Radiansys Inc.

11/2017 – 06/2021 Fremont, CA

- Developed full-stack applications in the E-commerce industry, leveraging React and Python Django.
- Integrated PostgreSQL and MongoDB databases for effective data management.
- Worked closely with product managers to craft user-friendly features, leading to a 25% boost in user engagement.
- Followed agile methodologies to ensure timely project deliveries and maximum customer satisfaction.
- Utilized Git for version control, streamlining the software development process.
- Solved complex technical issues efficiently, improving system reliability.
- Enhanced application speed by 20% through successful optimization strategies.

Full Stack Developer

Innostax Tech LLC

07/2015 – 11/2017 Framingham, MA

- Built and maintained full-stack solutions for the Education sector using JavaScript and Java frameworks.
- Collaborated with cross-functional teams to deliver innovative features, increasing platform adoption by 15%.
- Incorporated NoSQL databases, enhancing data accessibility and storage.
- Implemented continuous integration processes to improve software quality.
- Led technical troubleshooting and debugging efforts, strengthening application stability.

Web Developer

Jaguar Design Studio

05/2011 – 07/2015 Aptos, CA

- Designed and developed front-end interfaces with HTML5, CSS3, and JavaScript, improving user engagement.
- Worked on responsive front-end solutions, supporting diverse client portfolios.
- Enhanced website performance and scalability for Front-End design projects.
- Collaborated effectively with design teams to align technical solutions with user experience goals.

TECHNICAL SKILLS

- Programming Languages: JavaScript, TypeScript, Python, Java, C#, C/C++
- Frontend: React.js, HTML5, CSS3, Angular
- Backend: Node.js, Django, Flask, Ruby on Rails
- Databases: PostgreSQL, MySQL, MongoDB
- DevOps & Tools: Docker, Kubernetes
- Cloud Platforms: AWS, Azure, Google Cloud
- Version Control: Git
- Testing: CI/CD Pipelines
- Other Tools & Platforms: RESTful APIs, GraphQL, Serverless Architectures

EDUCATION

Master of Science in Computer Science

University of San Francisco

08/2009 – 05/2011 San Francisco, CA

Bachelor of Science in Computer Science

University of San Francisco

08/2005 – 05/2009 San Francisco, CA
