Summary

Results-driven Software Developer with 3+ years of experience in full-stack development, delivering dynamic and data-driven applications. Proficient in Angular 16+, ASP.NET Core, C#.NET 8, and SQL Server, with a strong foundation in cloud deployment strategies using Azure and AWS. Committed to writing clean, efficient code and contributing to high-performing development teams.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, PL/SQL, SQL.

Frameworks & Libraries: Angular, RxJS, C#.Net, Asp.Net Core, Entity Framework, Linq, RESTful APIs.

Developer Tools: SQL Server, PostgreSQL, Git, VS Code, Visual Studio, Teams. Cloud & DevOps: Azure(Data factory, storage, function), AWS(EC2, RDS).

EXPERIENCE

University of Houston-Clear Lake

June 2024 - Present

Research Assistant Houston, TX

- Researching **SQL** injection, data breaches, and encryption in cloud-based **DBMS** systems.
- Integrated AES-256 encryption and Role-Based Access Control to fortify data security.
- Benchmarked AWS RDS and PostgreSQL to validate performance impact of security enhancements.

WellBee HealthCare, Inc.

Aug 2020 - July 2022

Software Developer Mumbai, India

- Developed a healthcare e-commerce platform for booking diagnostic services, serving 500+ users weekly across India.
- Built a scalable appointment booking system with **Angular** components and **.NET Web APIs**, streamlining workflows and improving performance, which led to a **30% increase** in monthly **revenue**.
- Integrated external gateway (Razorpay) for secure, seamless payments, boosting success rates and user satisfaction.
- Implemented **Veracode SAST** using **GitHub Actions**, identifying and resolving vulnerabilities (e.g., SQL Injection, XSS), reducing security flaws by **40**%.
- Revamped a vulnerable PHP-based system into a secure, modern web platform using ASP.NET Core and Angular, introducing HTTPS and JWT auth to protect user data and elevate usability.

Projects

SkiNet E-Commerce Platform

Feb 2025

- Built e-commerce platform with **Angular** and **ASP.NET Core** backend for smooth product browsing and buying.
- Implemented product filtering, pagination, and cart features using Angular Material, **Reactive Forms**, RxJS, and created **RESTful APIs** with ASP.NET Core.
- Optimized database and migrated data management using Entity Framework for improved persistence.
- Integrated **Stripe API** with secure payments, ensuring PCI, GDPR, and HIPAA compliance.

DevZoneBlog – Secure Blog Engine

May 2023

- Angular front-end with secure C# Web API backend and JWT authentication.
- Validated APIs using Postman and Swagger, and implemented dependency injection for cleaner code.

ETL Pipeline for Power BI Dashboarding

Nov 2021

- Built an ETL pipeline in Azure Data Factory to consolidate sales, customer, and product data into Azure SQL.
- Designed Power BI dashboards to monitor KPIs for sales and customer trends, enabling faster decisions and cutting reporting time by 40%.

EDUCATION

Master of Science in Management Information Systems

Aug 2022 - May 2024

University of Houston Clear-Lake; GPA: 3.8/4.0

Houston, TX

Bachelor of Engineering in Electronics

Aug 2018 - May 2022

University of Mumbai

Mumbai, India
